

# Curve Ecosystem

# Stay Discrete Connected Safe

Communication solution for direct  
connection and rapid response

# Overview

The Curve Ecosystem is a combination of technologies that work together to enrich the customer experience.

Enhancements like Customer Assist and Voice Assist\* embolden the Digital Hub and Wi-Fi Call Buttons to connect customers directly to staff; with the Curve Digital Hub acting as an interface that connects your Wi-Fi Call Buttons to your Curve and DLR radios via voice alerts.

With scalable opportunities like data analytics, this ecosystem is a tool for educated staffing, efficient operational workflows and real-time loss prevention.

## Key Features:

- Digital Hub is compatible with Curve and DLR radios
- Call Buttons come in 4 flexible form factors
- Call Buttons have attention-grabbing LED lights
- Programmable escalation rule

\* Please check with your sales representative for availability of Voice Assist subscriptions

# Customer & staff friendly

Wi-Fi Call buttons connect to radios via the digital hub

**Continued Support, Better Ownership Experience:** Device name, model number and preview image clearly labeled on the box. Scan the QR code on the back of the device to find the get started page and support materials.

# Designed to fit inside your workflow

Customer presses Wi-Fi call button for assistance

Staff responds rapidly, ensuring customer is assisted and safe.

Curve Digital Hub sends configurable voice alerts to Curve or DLR radio fleet

With 3 years of battery life, over the air provisioning and reporting analytics, this solution is a model designed for recurring revenue.
