

PUBLIC SAFETY SUPPORTING PUBLIC HEALTH

COMMANDCENTRAL JAIL

This is an unprecedented moment in our history. With the COVID-19 outbreak threatening our global health, frontline responders are called to act now more than ever, joining together to fight the spread of this disease. Amid this global crisis, Motorola Solutions is committed to supporting the critical communications, safety and security needs of our public safety customers.

Improve your response by enabling existing features of the technology you already own. With CommandCentral Jail, monitor the spread of COVID-19 and make your jails safer and more efficient through automation, alerting and awareness of jail and inmate exposure and activity.

THE IMPORTANCE OF DATA COLLECTION		RECOMMENDATIONS
	<p>With the world rapidly adjusting to COVID-19, your agency is challenged to quickly educate and train personnel to obtain essential information. Ensure better inmate management by modifying assessments and prioritizing notifications to mitigate, isolate and contain the pandemic within a facility.</p>	• Configure COVID-19 alerts
		• Create personal protective equipment group
		• Add COVID-19 questions
		• Track exposed inmates
		• Log vital signs
		• Categorize temporary COVID-19 release type
		• Track booking refusals

OUR MISSION	
	<p>Motorola Solutions builds software for mission-critical environments where every second matters. CommandCentral software suite puts your information to better use, improves safety for your teams and restores your focus on the communities you serve. Backed by a trusted, 90-year veteran with proven public safety leadership, our suite is transforming the public safety experience.</p>
