

PUBLIC SAFETY SUPPORTING PUBLIC HEALTH

PREMIERONE[®] RECORDS MANAGEMENT SYSTEM

This is an unprecedented moment in our history. With the COVID-19 outbreak threatening our global health, frontline responders are called to act now more than ever, joining together to fight the spread of this disease. Amid this global crisis, Motorola Solutions is committed to supporting the critical communications, safety and security needs of our public safety customers.

Improve your response by enabling existing features of the technology you already own. With PremierOne Records, streamline data entry and empower your agency personnel in every department with the most up-to-date COVID-19 information. Discover how users can follow detailed status information in the module to help track cases from call to case closure.

THE IMPORTANCE OF DATA COLLECTION		RECOMMENDATIONS
 <p>Easily manage all data across your operation. Incident and 9-1-1 data, COVID-19 information, radio logs, images and video are centralized, intelligently organized and can be digitally shared to eliminate complexity, achieve compliance and improve productivity.</p>		• Create "COVID-19 exposure" fields
		• Use the code tables yes/no codes
		• Track data pertaining to COVID-19
		• Create a field interview type field
		• Track citizens/residents based on COVID-19 contact
		• Create a new folder flag
		• Create activity logs
		• Track COVID-19 supplies and issuance/cost
• Create modules to capture incident command information		

PRIORITIZE NOTIFICATIONS		RECOMMENDATIONS
 <p>Create customized notifications and alerts to track department resources and equipment.</p>		• Track supplies and department equipment availability
		• Track overtime/task force employment
		• ACT field(s) can be utilized to report an increase in crime

ADDITIONAL CONFIGURATIONS		RECOMMENDATIONS
 <p>Review additional PremierOne Records recommendations to help improve response today.</p>		• Send notifications to specific groups/task forces when a document contains COVID-19
		• Share information across agencies using the same system
		• Create default views for modules specific to COVID-19
