

MOBILE ANPR CAMERA SYSTEM

With time at a premium and distractions ever-growing, officer attention needs to be prioritised. The L5M mobile automatic number plate recognition (ANPR) camera system is a high-performance solution meant for those who want to maximise detections and data collection to ensure their officers are their safest and most productive while on the road.

With a new, industry-leading image sensor, the L5M provides unprecedented low light performance for accurate number plate and vehicle make and model recognition. A global shutter ensures clear image capture of number plates moving at higher speeds than ever. And our modernised in-car user experience makes all the tools officers need to stay alert and conduct investigations easily accessible.

Paired with the powerful VLP processor, configure your systems with up to four cameras that will continuously and reliably scan day-in and day-out. Even mix and match our previous-generation cameras within a single system for added flexibility or coverage.

Like all of our ANPR camera systems, the L5M seamlessly connects with our suite of software solutions, including Vigilant PlateSearch where data can be further operationalised with patented search capabilities and analytics.

FOCUS YOUR ENFORCEMENT

DETECT MORE VEHICLES YOU PASS

Capture accurate number plate and make and model information on vehicles moving at high speed and in light and dark conditions.

STAY IN THE KNOW AS YOU DRIVE

Our in-car software keeps you informed at all times with real-time alerts, quick search, system monitoring and distraction-free design.

DEPLOY YOUR CAMERAS YOUR WAY

Rely on a flexible system that can be built to meet your exact needs with a variety of camera options and high-powered processing.

SCAN MORE. MAINTAIN LESS.

Patrol confidently with a system that is always up-to-date and will work as long and as hard as you do, in rain or shine, wind or snow.

AMPLIFY INSIGHT & AWARENESS

Go beyond basic alerts and searches with patented analytics and complete control over your data retention and sharing.

FOCUS YOUR ENFORCEMENT

BUILT TO KEEP COMMUNITIES SAFER

To do ANPR well, you need the right tools for the job. We provide the most flexibility and options for capturing number plate data with fixed, mobile, trailer and quick-deploy camera systems, video-based integration and even mobile apps. All of these are equipped with our in-house developed, industry-leading ANPR algorithm that is relied upon by law enforcement agencies world-wide.

Beyond ensuring you can collect the data you need, our suite of software solutions, including Vigilant PlateSearch, combines robust hot list management and alerting options with patented search and data analytics to equip your team with the insights they need to close more cases, faster.

Our software also keeps you in complete control of your data and systems with group and user-based access control, agency-defined data retention and broad data sharing options with built in memorandum of understanding (MOU) templates for you and your partners.

Lastly, to ensure your programme is successful, your solution is backed by a team who has built our ANPR portfolio to be secure and designed for responsible use from the ground up.
